

MAKE PAPER CHAINS TO DECORATE YOUR HOME FOR CHRISTMAS

We all used to make paper chains, before we had so many decorations available to buy.

But this is a fun activity to do with children, and you will enjoy the results!

- Cut strips of paper (wrapping paper, newspaper, craft paper, typing paper, magazines, anything goes) about 20 cm x 5 cm
- Make a loop with one strip. Glue or staple the ends, or you can use sticky tape.
- Feed another strip through the loop, and close the end as above
- Keep going until you have a chain long enough to pin up in a room, or on the tree

You can add glitter or hang baubles from your paper chain if you like.
